

Roll'n'Pall

Minimizes replenishment cost, Maximizes in-store availability

- Worldwide patent serves a dual function as both pallet and heavy duty dolly, by a simple foot activated mechanism.
- Uniquely designed to replace forklifts, eliminating the time and cost of replenishing and allowing easy & safe in-store handling.
- Easy to operate – press foot pedal for dolly and runner for pallet.
No major force needed.
- Optimum compatibility with automated production lines – castors are completely retracted when in pallet mode.
- Accommodates various beverage trays and crates, both foldable and nestable.
- Pop-up/flat surface - upon demand.

Technical Details

Dimensions (LxWxH)

80 x 60 x 19.7 cm
